## Frequently asked questions

**Are certified insulated tools made through a different procedure than non-certified insulated tools?**
The tools are made according to the same procedure.

**Are insulated (VDE) tools considered as personal protective equipment (PPE)?**
According to EU regulations, VDE tools are not considered as PPE.

**Are the VDE tools only being sampled in series production?**
The high voltage test (at 10kV) is performed fully on each tool. Other tests are performed in accordance with the EN60900 standard.
