Bosch gen 2 lockring tool

1726.BL2

Profiles

Product features

- Designed for the installation and removal of chainring lockrings on Bosch® Gen 2 e-bike motors.
- Precision-engineered with CNC machined premium flex plus carbon steel for superior durability and performance.
- Integrated 1/2" drive fitting ensures compatibility with our ratchet, fixed handle, and torque wrenches for convenient use.
- Compatible with Bosch Active Line, Performance Line, and Performance Line CX from model year 2014 onwards, with a 50 mm lockring outer diameter.

- This tool serves as a reliable replacement for the Bosch® 0275009003 tool.
