- 6x T-handle ball-end hex wrench (article 193HXS) dim. 3, 4, 5, 6, 7, 8

Modules mousse SOS - Avantages :

- Matière : mousse polyéthylène de faible densité
- Les modules mousse SOS sont faits en mousse polyéthylène bi-couche résistante à la graisse, à l'essence, à l'huile, aux nitro solvants, aux adhésifs et à l'huile de moteur. Tous pouvant être nettoyés sans laisser de traces visibles (taches). Pour éviter les taches permanentes, les salissures d'adhésifs ou d'huile de moteur doivent être nettoyées immédiatement en appliquant de l'essence.

- These tool trays of polyethylene foam are used for clearer and better organised tool storage in tool boxes, tool cases, the drawers of tool carriages and tool cabinets. These tool trays can be used in a wide range of temperatures, do not absorb dampness and, with normal use, have a long lifespan. They protect the tools by holding them in their own specifically designed place, thus preventing them from moving uncontrollably around in the storage area. As the positions in the tray are precisely defined and designed for each specific tool, it is also easy to establish which tools are missing.

Why Choose Unior:

- Unior is a renowned brand in the industry, celebrated for its dedication to quality and innovation. With a legacy of excellence, Unior tools are crafted to meet the highest standards, ensuring reliability and outstanding performance.
