Module din spuma SOS - Avantaje

- Material:spuma polietilenica de joasa densitate
- Modulele SOS sunt facute din spuma de polietilena dublu strat care este rezistenat la grasimi, benzina, ulei, solventi nitro, adezivi si ulei de motor - toate putand fi curatate fara a lasa urme vizibile (pete). Pentru a evita petele permanente, murdaririle cu adezivi sua uleiul de motor, acestea trebuiesc curatate imediat cu benzina.
- These tool trays of polyethylene foam are used for clearer and better organised tool storage in tool boxes, tool cases, the drawers of tool carriages and tool cabinets. These tool trays can be used in a

wide range of temperatures, do not absorb dampness and, with normal use, have a long lifespan. They protect the tools by holding them in their own specifically designed place, thus preventing them from moving uncontrollably around in the storage area. As the positions in the tray are precisely defined and designed for each specific tool, it is also easy to establish which tools are missing.
