- The Unior tool set is specifically designed for electrical work! This comprehensive collection includes a variety of pliers and scissors, providing everything you need for your electrical tasks. Whether you're nipping, cutting, or handling cables and wires, this set is the perfect solution for you. Each pair of pliers features a red-orange double-component handle and comes with a certificate, ensuring precision and efficiency in the electrical field. Additionally, the robust tool tray is built for durability and conveniently fits into Unior carriages or workbench drawers. Elevate your electrical work with this essential tool set!
- Tool tray dimension: 564 x 364 x 30 mm
- Compatible with drawers of Eurostyle, Eurovision, Euromotion, Europlus and Hercules (front drawers) line

De set bestaat uit:

- 1x combination pliers (article 406/1VDEBI) dim. 180
- 1x diagonal cutting nippers (article 461/1VDEBI) dim. 160
- 1x wire stripping pliers (article 478/1VDEBI) dim. 160
- 1x long flat nose pliers (article 472/1VDEBI) dim. 160

- 1x multifunctional electrician's pliers (article 514/1BI) dim. 160
- 1x heavy duty diagonal cutting nippers (article 466/1VDEBI) dim. 180
- 1x straight long nose pliers with side cutter and pipe grip (article 508/1VDEBI) dim. 170
- 1x long nose pliers with side cutter and pipe grip, bent (article 512/1VDEBI) dim. 170
- 1x cable shears (article 580/1VDEBI) dim. 170
- 1x waterpump box joint pliers (article 447/1VDEBI) dim. 240
- 1x Electricians` scissors (article 582/3BI) in dim. 145

SOS tool trays – advantages:

- material: low density polyethylene foam
- The tool trays are made from foamed polyethylene, which is resistant to grease, petrol, oil, nitro diluents, adhesives and motor oil – all of which can easily be removed without leaving any visible residue (stains). Adhesives and motor oil need to be removed immediately by cleaning with petrol in order to avoid permanent staining.
- These tool trays of polyethylene foam are used for clearer and better organised tool storage in tool boxes, tool cases, the drawers of tool carriages and tool cabinets. These tool trays can be used in a wide range of temperatures, do not absorb dampness and, with normal use, have a long lifespan. They protect the tools by holding them in their own specifically designed place, thus preventing them from moving uncontrollably around in the storage area. As the positions in the tray are precisely defined and designed for each specific tool, it is also easy to establish which tools are missing.
