- 1x multifunctional electrician`s pliers (article 514/1BI) dim. 160

- 1x heavy duty diagonal cutting nippers (article 466/1VDEBI) dim. 180
- 1x straight long nose pliers with side cutter and pipe grip (article 508/1VDEBI) dim. 170
- 1x long nose pliers with side cutter and pipe grip, bent (article 512/1VDEBI) dim. 170
- 1x cable shears (article 580/1VDEBI) dim. 170
- 1x waterpump box joint pliers (article 447/1VDEBI) dim. 240
- 1x Electricians` scissors (article 582/3BI) in dim. 145

SOS tool trays – advantages:

- material: low density polyethylene foam
- The tool trays are made from foamed polyethylene, which is resistant to grease, petrol, oil, nitro diluents, adhesives and motor oil – all of which can easily be removed without leaving any visible residue (stains). Adhesives and motor oil need to be removed immediately by cleaning with petrol in order to avoid permanent staining.
- These tool trays of polyethylene foam are used for clearer and better organised tool storage in tool boxes, tool cases, the drawers of tool carriages and tool cabinets. These tool trays can be used in a wide range of temperatures, do not absorb dampness and, with normal use, have a long lifespan. They protect the tools by holding them in their own specifically designed place, thus preventing them from moving uncontrollably around in the storage area. As the positions in the tray are precisely defined and designed for each specific tool, it is also easy to establish which tools are missing.
