Set of tools for servicing heavy machinery and vehicles

1012E

Product features

- Introducing the new Unior Set 1012E – the ultimate servicing toolkit for heavy machinery and vehicles.
- Designed and engineered for professionals who demand nothing but the best, this comprehensive set expands upon our previous solution to deliver exceptional depth, flexibility and performance.
- This latest edition features 8 high-capacity trays neatly integrated into a full-sized tool-carriage format — providing more tools, better organization and faster access than ever before. Every tool is precision-manufactured and built for the rigours of workshop life: from high-torque fasteners to critical service points on heavy-duty equipment.
- When your work demands the highest level of performance, go with Unior Set 1012E — the smarter, more complete servicing solution.
- Key benefits:
- Greater tool count & diversity: Accommodates a broader range of operations, enabling you to tackle every task on heavy equipment with confidence.
- Integrated tool-carriage system: All trays mount in a single mobile cabinet ensuring optimized workflow, faster change-over and less downtime.
- Premium build quality: Engineered with chrome-vanadium alloy, ergonomically designed handles and tough finishes — for long life in demanding environments.
- Ready for the professional service bay: This set is ideal for field service teams, heavy-machinery workshops and vehicle fleets where versatility and durability count.

Unior 940EM2 Tool carriage Features:

- 7. Other Tools (964/52BSOS): This set includes additional tools for general maintenance, from saw, tyre levers, grease gun and oil filter chain wrench.
- 8. Socket Wrenches (964/53SOS): A complete range of socket wrenches, accessories, and screwdriver sockets in 3/4" sizes.

SOS tool trays – advantages:

- material: low density polyethylene foam
- The tool trays are made from foamed polyethylene, which is resistant to grease, petrol, oil, nitro diluents, adhesives and motor oil – all of which can easily be removed without leaving any visible residue (stains). Adhesives and motor oil need to be removed immediately by cleaning with petrol in order to avoid permanent staining.
- These tool trays of polyethylene foam are used for clearer and better organised tool storage in tool boxes, tool cases, the drawers of tool carriages and tool cabinets. These tool trays can be used in a wide range of temperatures, do not absorb dampness and, with normal use, have a long lifespan. They protect the tools by holding them in their own specifically designed place, thus preventing them from moving uncontrollably around in the storage area. As the positions in the tray are precisely defined and designed for each specific tool, it is also easy to establish which tools are missing.

Why Choose Unior:

- Unior is a renowned brand in the industry, celebrated for its dedication to quality and innovation. With a legacy of excellence, Unior tools are crafted to meet the highest standards, ensuring reliability and outstanding performance.
- Elevate your workspace with the Unior workshop equipment. Experience the perfect blend of functionality, durability, and style for all your workshop needs.
