

# Szigetelt kombinált fogó

420/1VDEBI

## Profilok

## Szabványok

DIN EN IEC 60900 (VDE 0682-201):2019-04; EN IEC 60900:2018

## Termékjellemzők

- anyaga: Premium Plus szénacél
- kovácsolt, teljes anyagában nemesített
- vágóélek indukciósan edzettek
- fej polírozott
- felületkezelés: krómozott, ISO 1456:2009 szabvány szerint
- megerősített, kétkomponensű markolat
- EN IEC 60900 szabvány szerint

	L	B	C	A	
610425	180	24	45	11	241

vágási képesség (10 N = 1 kg)

	L	max 1600 N/mm <sup>2</sup> Ø↑		max 650 N/mm <sup>2</sup> Ø↑	
610425	180	1,8		2,5

Használat (pictures)

## Safety tips

- Pliers should be oiled regularly. A drop of oil at the hinge will lengthen the tool life and assure easy operation.
- When cutting wire with pliers, you should always wear glasses or goggles.

- Don't use pliers for cutting hardened wire, unless specifically manufactured for this purpose.
- Don't expose pliers to excessive heat. This may ruin the tool.
- Don't use pliers as a hammer.
- Don't hammer on the handles. They may crack or break.
- Don't extend the length of plier handles to secure greater leverage.
- Don't use pliers on nuts or bolts. A wrench will do a better job and with less risk of damage to the fastener.

## Frequently asked questions

**Are certified insulated tools made through a different procedure than non-certified insulated tools?**

The tools are made according to the same procedure.

**Are insulated (VDE) tools considered as personal protective equipment (PPE)?**

According to EU regulations, VDE tools are not considered as PPE.

**Is it possible to work with insulated pliers under electrical voltage?**

Yes, but only by professionals who follow safety requirements and use additional personal protective equipment.

**Are the VDE tools only being sampled in series production?**

The high voltage test (at 10kV) is performed fully on each tool. Other tests are performed in accordance with the EN60900 standard.
