

Alicate puntas redondas largas, aislado

476/1VDEBI

Perfiles

Normas

DIN EN IEC 60900 (VDE 0682-201):2019-04; EN IEC 60900:2018

Características del producto

- Material: composición especial para temple y endurecimiento
- totalmente templado y revenido
- cabezas pulidas
- acabado: cromado según ISO 1456:2009
- mangos en doble componente para trabajos duros
- fabricada totalmente de acuerdo con ISO 5745 y EN IEC 60900

Ventajas:

- largas puntas capaces de alcanzar cables en espacios de difícil acceso
- menos posibilidades de cables dañados

Preguntas frecuentes

Are certified insulated tools made through a different procedure than non-certified insulated tools?

The tools are made according to the same procedure.

Are insulated (VDE) tools considered as personal protective equipment (PPE)?

According to EU regulations, VDE tools are not considered as PPE.

Is it possible to work with insulated pliers under electrical voltage?

Yes, but only by professionals who follow safety requirements and use additional personal protective equipment.

Are the VDE tools only being sampled in series production?

The high voltage test (at 10kV) is performed fully on each tool. Other tests are performed in accordance with the EN60900 standard.
