

Schoteltrekker-sortiment

2026/2

Profielen

Product attributen

- material: body from premium flex plus carbon steel, arm from premium chrome vanadium steel
- Surface finish of screws: burnished, other parts are chrome-plated
- The separator puller is a tool designed to efficiently dismount various machine parts attached to shafts.

- It is indispensable for tasks requiring the safe and deformation-free dismantling of firmly fixed machine parts.
- Our product range includes three sizes of pullers used for taking off objects from shafts. They range from Ø5mm to Ø115mm.

Voordelen:

- The separator puller consists of a yoke, a spindle, two arms and a gripper assembly, which together allow uniform dismantling.
- The separator puller is designed to allow easy and safe operation
