

# Rotor and sprocket holding tools

3051/2BI

## Profiles

---

## Product features

- material: premium plus carbon steel
- surface finish: trivalent chrome plated to standard ISO 1456:2009
- ergonomic heavy duty double component handle

## Advantages:

- Due to its universal structure, it allows holding holes with a diameter of 5 or 9 mm and at a distance between 20 to 180 mm.
- The tool also has a screw that enables fixing of the tool at the actual distance between holes on the magnet or the sprocket.

## Usage:

- The tool is designed for holding the magnet and the sprocket during assembly or disassembly.
- all types of motorbikes
