Safety tips

- Be careful of sharp edges on the cutting edges of these tools.
- Use only hand pressure for cutting.
- Snips should be carefully put away after use. Wipe the cutting edges with a lightly oiled rag.
- Oil the pivot bolt on the snips occasionally.

- Don't try to cut sharp curves with straight cut snips.
- Don't sharpen a snip blade.
- Don't use snips as a hammer, screwdriver or pry bar. Use proper tools for the job.
- Don't store snips in a drawer with other tools. Tools with cutting edges should always be treated with extra respect.
- Never hammer, or use your foot to get extra pressure on the cutting edges.

Frequently asked questions

Poate o persoană stângace să folosească tăietori drepte?

Da, foarfecele de stânga sau dreapta sunt destinate direcției de tăiere a razei.
