

# Bolt cutters with interchangeable triangular cutting edges

596PLUS/6G

## Profiles

---

## Product features

- material: premium hard chrome vanadium steel
- jaws exchangeable and adjustable in three position, entirely hardened and tempered
- steel handles, lacquered, heavy duty plastic handles

## Advantages:

- extreme strength and minimum weight
- outstanding resistance to the maximum forces generated during cutting
- complete anti-corrosion resistance
- straightforward guidance and proper handling
- shock absorber for the prevention of injuries
- triangular blade - threefold longer service life
- the procedure for adjusting the jaw cutting edges

## How to adjust the cutting edges?

- Release the safety nut.
- Take the screw out of the groove and turn it until there is no spacing between the cutting edges

- Secure the safety nut.

## Frequently asked questions

**Can we eliminate the clearance between the blades of the bolt cutter?**

Of course. The procedure is described in the instructions.

**If we change the triangular blade, do we have to adjust the clearance as well?**

When installing, it is necessary to make sure that the blades are installed in parallel and that the screws are tightened accordingly.
