

Campagnolo and Fulcrum Ultra Torque bearing removal and installation set

Hidden

1626/2

Profiles

Product features

- Designed and built to install and remove the pressed bearing used on Campagnolo® and Fulcrum® Ultra-Torque cranks.
- The bearing puller's forged arms and tapered edges securely pinch under the bearing while the heavy-duty plunger system "pulls" the bearing.

How to use the tool:

- The installation tool precisely fits both the crank spindle and the press fit bearing to ensure proper installation. Just tap the bearing into place using the tool and a hammer.
