

# Dana elektrokombinuara, izoluar

420/1VDEDP

## Profiles

## Standards

DIN EN IEC 60900 (VDE 0682-201):2019-04; EN IEC 60900:2018

## Product features

- materiali: çeliku të veçantë mjet
- rënie të falsifikuara, ngurtësuar tërësisht dhe nevrík
- prerjes buzë induksion thekur
- kreu i lëmuar
- përfundojë sipërfaqe: krom kromuar për ISO 1456:2009 standarde
- bërë sipas standardit EN IEC 60900

## Avantazhet:

- trajton janë të izoluar me shtresa të dyfishtë - izolim të dyfishtë ngjyrë për sigurinë e të tjera

E rëndësishme!

- në qoftë se shtresa e dytë është e dukshme, të zëvendësojë mjet tuaj VDE me një të re.

|        |     |    |    |    |     |
|--------|-----|----|----|----|-----|
|        | L   | B  | C  | A  |     |
| 619176 | 180 | 24 | 45 | 11 | 221 |

Kapaciteti i prerjes (10N = 1 kg)

|        |     |                               |                              |
|--------|-----|-------------------------------|------------------------------|
|        | L   | max 1600 N/mm <sup>2</sup> Ø↑ | max 650 N/mm <sup>2</sup> Ø↑ |
| 619176 | 180 | 1,8                           | 2,5                          |

\* Imazhet e produkteve janë simbolike. Të gjitha dimensionet janë në mm, pesha në gram. Të gjitha dimensionet e listuara mund të ndryshojnë në tolerancë.

## Usage (pictures)

## Safety tips

- Pliers should be oiled regularly. A drop of oil at the hinge will lengthen the tool life and assure easy operation.
- When cutting wire with pliers, you should always wear glasses or goggles.

- Don't use pliers for cutting hardened wire, unless specifically manufactured for this purpose.
- Don't expose pliers to excessive heat. This may ruin the tool.
- Don't use pliers as a hammer.
- Don't hammer on the handles. They may crack or break.
- Don't extend the length of plier handles to secure greater leverage.
- Don't use pliers on nuts or bolts. A wrench will do a better job and with less risk of damage to the fastener.

## Frequently asked questions

### **Are certified insulated tools made through a different procedure than non-certified insulated tools?**

The tools are made according to the same procedure.

### **Are insulated (VDE) tools considered as personal protective equipment (PPE)?**

According to EU regulations, VDE tools are not considered as PPE.

### **Is it possible to work with insulated pliers under electrical voltage?**

Yes, but only by professionals who follow safety requirements and use additional personal protective equipment.

### **Are the VDE tools only being sampled in series production?**

The high voltage test (at 10kV) is performed fully on each tool. Other tests are performed in accordance with the EN60900 standard.
