

# Multifunctional diagonal cutting nippers

462/1VDEBI

## Profiles

## Product features

- material: premium plus carbon steel
- drop forged, entirely hardened and tempered
- cutting edges induction hardened
- head polished
- surface finish: trivalent chrome plated to standard ISO 1456:2009
- heavy duty double - component handles
- made according to standard EN IEC 60900

## Advantages:

- Stripping off insulation of single conductors 1,5 mm<sup>2</sup> and 2,5mm<sup>2</sup>

|  | L   | B  | A  | C  |  |
|---|-----|----|----|----|--|
| 624060  | 160 | 21 | 10 | 22 | 214  |

cutting capacity

|  | L   | max 1560 N/mm <sup>2</sup> Ø↑ | max 750 N/mm <sup>2</sup> Ø↑ |
|--|-----|-------------------------------|------------------------------|
| 624060   | 160 | 1,6                           | 2,5                          |

\* Images of products are symbolic. All dimensions are in mm, and weight in grams. All listed dimensions may vary in tolerance.

## Frequently asked questions

**Are certified insulated tools made through a different procedure than non-certified insulated tools?**

The tools are made according to the same procedure.

**Are insulated (VDE) tools considered as personal protective equipment (PPE)?**

According to EU regulations, VDE tools are not considered as PPE.

**Is it possible to work with insulated pliers under electrical voltage?**

Yes, but only by professionals who follow safety requirements and use additional personal protective equipment.

**Are the VDE tools only being sampled in series production?**

The high voltage test (at 10kV) is performed fully on each tool. Other tests are performed in accordance with the EN60900 standard.
