Tire setter

1601/2DP-US

Profiles

Product features

- material: premium plus carbon steel
- drop forged, entirely hardened and tempered
- surface finish: trivalent chrome plated to standard ISO 1456:2009
- double plastic dipped handles
- The pliers are intended for fast straightforward tire removal - especially tires that have already bonded with the rim. Using the pliers, we compress the tire so that it detaches from the bead of the rim. A strong grip facilitates the removal of the tires. The well designed shape of the pliers enables the separation of the tire from the rim and ensures that the inner tube is not punctured when removing the tire. The pliers are chromed and laminated with plastic for a more comfortable grip.
