

VDE Kabelmes

385CVDEDP

Profielen

Product attributen

- mes van hooggelegeerd staal
- dubbellagige en tweekleurige isolatie voor extra veiligheid
- surface finish: phosphated to standard ISO 9717
- met mesbeschermer
- blade hardened at min. 55 HRc
- rounded blade, 60mm long
- ergonomic handle, with slip guard
- handle with finger hook for good transmission of force
- Material of steel blade provides maximum sharpness and durability by dismantling of cables
- blade protected with PVC protection

Gebruik:

- for dismantling PVC cable insulation

Veelgestelde vragen

Are certified insulated tools made through a different procedure than non-certified insulated tools?

The tools are made according to the same procedure.

Are insulated (VDE) tools considered as personal protective equipment (PPE)?

According to EU regulations, VDE tools are not considered as PPE.

Are the VDE tools only being sampled in series production?

The high voltage test (at 10kV) is performed fully on each tool. Other tests are performed in accordance with the EN60900 standard.
