Opis proizvoda

- Dimenzije uloška 188x364x30 mm
- Odgovara fiokama kolica iz serija Eurostyle, Eurovision, Euromotion, Europlus i Hercules (sa prednjim fiokama)

Sadržaj:

- 1 kom kombinovanih klešta (art. 406/1BI), dim. 180 mm
- 1 kom kosih sečica (art. 461/1BI), dim. 160 mm
- 1 kom. pravih špic klešta (art. 508/1BI), dim. 170 mm

SOS ulošci za alat - prednosti:

- materijal: meka polietilenska pena
- SOS ulošci za alat izrađeni su od dvoslojne polietilenske pene, otporne na maziva, benzin, ulja, nitro razređivače, lepkove i motorno ulje - sve ovo se može lako ukloniti bez ostataka bilo kakvih vidljivih mrlja. Lepkovi i motorna ulja moraju se odmah ukloniti čišćenjem benzinom kako bi se izbegla trajna promena boje. Ovi ulošci za alat su dosta otporni u uobičajenim uslovima i ne menjaju oblik sve do temperature od 80 °C.

- These tool trays of polyethylene foam are used for clearer and better organised tool storage in tool boxes, tool cases, the drawers of tool carriages and tool cabinets. These tool trays can be used in a wide range of temperatures, do not absorb dampness and, with normal use, have a long lifespan. They protect the tools by holding them in their own specifically designed place, thus preventing them from moving uncontrollably around in the storage area. As the positions in the tray are precisely defined and designed for each specific tool, it is also easy to establish which tools are missing.

Zašto odabrati UNIOR:

- Unior je priznati brend u sektoru industrije, poznat po svojoj posvećenosti kvalitetu i inovacijama. Sa svojim izuzetnim nasleđem, Unior alati su proizvedeni sa namerom da zadovolje najviše standarde i obezbede pouzdanost i vrhunske performanse

Pravilna upotreba

- Pliers should be oiled regularly. A drop of oil at the hinge will lengthen the tool life and assure easy operation.
- When cutting wire with pliers, you should always wear glasses or goggles.
- Handles are provided for comfort. They are not intended to give user any degree of protection against electric shocks and should never be used on live electric circuits.

- Don't use pliers for cutting hardened wire, unless specifically manufactured for this purpose.
- Don't expose pliers to excessive heat. This may ruin the tool.
- Don't use pliers as a hammer.
- Don't hammer on the handles. They may crack or break.
- Don't extend the length of plier handles to secure greater leverage.
- Don't use pliers on nuts or bolts. A wrench will do a better job and with less risk of damage to the fastener.
