2-in-1 Disc Brake Tool

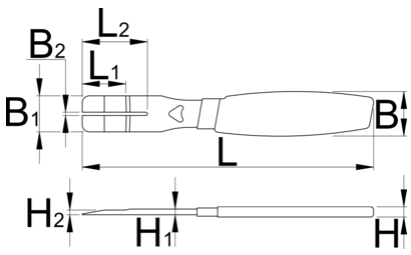

1757/2DP-US

Profiles

Product features

- material: premium flex plus carbon steel
- surface finish: trivalent chrome plated according to ISO 1456:2009
- Unique design of this tool combines two tools in one – standard disc brake pad spreader and rotor truing fork. The slot allows you to true the rotor back in place and save you thumbs from getting cut on the sharp edges of the rotor. The conically shaped tip of the tool is designed to slide between the pads inside the caliper and spread the pads, pushing pistons back in to the caliper. 2-in-1 Disc Brake Tool is the tool to have at hand in any home garage, when out riding or traveling.
- Warning: Always make sure disc calipers and disc rotor have cooled down before you start working on them.
