

# 压线钳

425/4A

## 配置文件

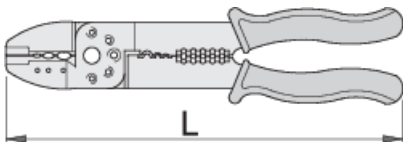

**Premium** + 

## 产品属性

- 材料:金属板材
- 完全淬火与回火
- 表面处理:根据ISO 9717标准进行磷酸盐处理
- 重型塑料把手

## 用途:

- 用于绝缘和非绝缘接插件(1.5-6mm<sup>2</sup>)，用于切割电缆、螺钉和剥离绝缘层。

## Frequently asked questions

### **Why is it necessary to use crimping pliers for cable connections? Why not simply use combination pliers?**

When working with cable connections, you must use crimping pliers because this is the only way to press the connections together correctly and accurately. This is a requirement for the safety of the joints and provided for by the grooves/shapes on the pliers.

### **Must the screw be screwed using the crimping pliers or can it just be pushed into the hole?**

A screw with the appropriate dimensions must be screwed using the appropriate punch on the pliers.
