

# 螺丝钳

407/4P

## 配置文件

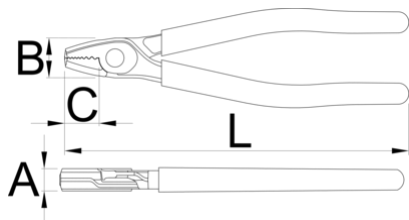

## 产品属性

Use Screw pliers to loose and unscrew screws that have damaged head profile and cannot be unscrewed with standard tools. Damage on the screw's profile usually occurs when screws are stuck due to gluing or corrosion and standard tool strips the profile. Pliers have horizontal and also vertical serrated teeth, which grab the screw by the outer diameter of the head. Teeth are strong and very sharp and provide excellent grip on screw's head, regardless of its profile. Pliers can be used on screw heads with diameter from 3 to 11 mm.

- 材料：特种工具钢
- 落锻，完全淬火与回火
- 头表面处理：细磨
- 表面处理：根据ISO 9717标准进行磷酸盐处理
- 双层塑料浸泡处理

## 优势：

- double serrated jaws, horizontal and vertical
- multipurpose use
- for screws head with diameter from 3 to 11 mm
