

# Pedal Genie

2650BI-US

## Profiles

## Product features

- Pedal Genie is used as a substitute for pedals while adjusting derailleurs on a bicycle without pedals. It's especially useful for building new bikes that usually come without pedals.
- The tool features a strong double injected handle, which enables comfortable and efficient grip.
- The Pedal Genie comes with two adaptors that offer two different ways of use. Threaded version for more efficient work and a conical version for quick checks.
- Threaded part is designed to work on the drive-side crank only (9/16" x 20 tpi thread).
