

Chain whip, singlespeed

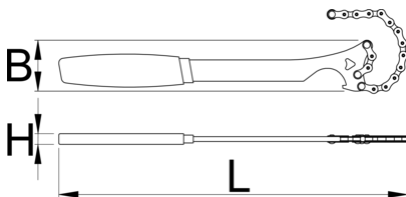

1659/2DP-US

Caracteristicile produsului

Thanks to its ergonomic shape and long double dipped handle for leverage, this chain whip will disassemble 1/8" fixed gear sprockets and single speed cassette sprockets with ease and without slippage. Magnet at the end of the chain helps with securing the chain to the sprocket and makes storage easier. Tool body features a lockring wrench for fixed gear sprocket lockrings. Made from laser cut tool steel and heat treated for strength and lasting performance.

- Material: Otel Carbon de scule calit si revenit
- acoperire cromare in conformitate cu ISO 1456:2009
- Magnet holds chain in place and makes the storage easier
