

Глух ключ с Т-образна дръжка

196N

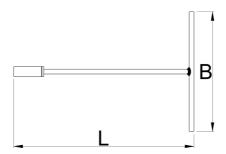

Профили

Параметри на продукта

- material: Premium Plus carbon steel (T-handle), Premium Flex chrome vanadium steel (socket wrench)
- surface finish: T-handle zinc plated according to ISO 2081:2018 (E), socket wrench trivalent chrome plated according to ISO 1456:2009

- The socket wrench is forged, entirely hardened and tempered.
- The color code of the wrench dimension is located on the T-handle.
- The wrench is also characterized by its low weight and excellent working balance. The length of Twrench ensures accessibility to places that cannot be reached with conventional wrenches. The colorcoded dimension marking ensures easy and quick identification and selection of the right dimension for your job.
